The Honorable Ron Wyden Chairman Senate Finance Committee U.S. Senate Washington, DC 20510

The Honorable Richard Neal Chairman House Ways and Means Committee U.S. House of Representatives Washington, DC 20515

The Honorable Frank Pallone Chairman Energy and Commerce Committee U.S. House of Representatives Washington, DC 20515

Dear Chairs and Ranking Members:

The Honorable Mike Crapo Ranking Member Senate Finance Committee U.S. Senate Washington, DC 20510

The Honorable Kevin Brady Ranking Member House Ways and Means Committee U.S. House of Representatives Washington, DC 20515

The Honorable Cathy McMorris Rodgers Ranking Member Energy and Commerce Committee U.S. House of Representatives Washington, DC 20515

On behalf of the undersigned organizations representing over *one million* physician and non-physician health care clinicians, we respectfully request that your committees collaborate with the provider community to immediately initiate formal proceedings (hearing, roundtables, expert panels, etc.) to discuss potential reforms to the Medicare physician payment system to ensure continued beneficiary access to care.

We appreciate Congress' actions over the last several years to mitigate scheduled cuts to the Medicare Physician Fee Schedule (MPFS). However, systemic issues such as the negative impact of the Medicare physician fee schedule's budget neutrality requirements and the lack of an annual inflationary update will continue to generate significant instability for health care clinicians moving forward, threatening beneficiary access to essential health care services. The ongoing COVID-19 pandemic has only exacerbated these existing issues. Furthermore, challenges associated with the Medicare Access and CHIP Reauthorization Act's (MACRA) Quality Payment Program (QPP) have prevented most clinicians from meaningfully participating in the program. For example, non-physician clinicians are still not fully integrated in the Merit-Based Incentive Payment System (MIPS) because most are ineligible to report cost and promoting interoperability measures which account for 55% of MIPS scoring. The incentive payments have also been historically low, far below the 9% Congress intended, rendering them an ineffective mechanism to offset the reductions required by budget neutrality. Therefore, improving MIPS and Alternative Payment Models, including extending the current incentives for participating in Advanced APMS, is also essential.

Under the current payment system, many health care clinicians continue to face steep annual reductions in their Medicare payments. The inherent instability of the MPFS, coupled with the shortcomings of MACRA's QPP, has created an environment where many practices have seen their payments decrease year-over-year, despite increasing costs and growing inflation.

Building on the broad bipartisan and bicameral support for recent efforts to mitigate steep payment cuts, our organizations welcome the opportunity to work together to establish a pathway for identifying policy solutions that will ensure long-term stability for the MPFS. Millions of seniors rely on the Medicare program, and we must work to ensure it remains a robust and dependable option for those who need it the most. We remain committed to partnering with Congress to identify and advance necessary reforms and appreciate your continued support of the health care clinicians on whom many Americans rely.

Sincerely,
